## THENTIX® Skin Conditioner

Order ANY Thentix product and receive a FREE Lip Balm; no minimum order required.

Thentix® conditions the skin and eliminates the need for moisturizers. Thentix® is not a moisturizer. It is a soothing and hydrating cream leaving skin feeling softer and more moisturized especially after washing.

Soaps normally wash off most moisturizers leaving skin feeling dry. Thentix® trains your skin to hydrate naturally. Therefore, your skin's need for Thentix® will lessen over time. Thentix® can be used all over the body, therefore you can replace your surface, lip, body, hand and foot cream with Thentix®.

Thentix® skin conditioner is made with "a touch of honey"; Honey has been used as a healing aid acting as an anti-bacterial, anti-fungal and anti-inflammatory agent. Honey also kills germs, promotes the growth of healthy tissue, treats burns effectively and promotes quicker healing with less scarring. Honey nourishes the skin and helps hydrate naturally. Thentix® also contains other ingredients that are known to have beneficial properties:

- Panthenol (vitamin B5) a moisturizer
- Royal Jelly, an anti-bacterial
- Aloe Vera for healing and moisturizing
- Ginseng Extract which oxygenates
- Calendula, an antiseptic
- Vitamin A, an anti-oxidant
- Vitamin E, a healing accelerator
- Avocado Oil, a skin toner
- Jojoba Oil, a preservative and softener
- Safflower Oil, an anti-inflammatory

Thentix&trade; helps a variety of conditions including:

- Dry Skin

- Dermabrasion

Thentix® is available in four sizes: 2 oz, 4 oz and 8 oz jars and our most popular and economical 12 oz pump bottle.

THENTIX® Pain Formula

What is Thentix® Pain Formula?

Thentix® - A Touch of Honey® Pain Formula is a unique topical pain relieving cream that contains anti-arthritic and anti-spasmodic properties with the ability to target serious pain and penetrate deep below the skin. Thentix® is formulated with only natural ingredients that have been used for centuries as pain relievers by natural healers. No harsh chemicals, which can be abrasive and damaging to skin over time, are found in Thentix® cream.

How Thentix® Pain Formula Works

Thentix® Pain Formula takes advantage of the special physiological properties of its three active ingredients MSM, Capsicum Oleoresin and Methyl Salicylate to achieve its incredible pain-destroying effects.

MSM (Methylsulfonylmethane) is a source of sulfur, a mineral critical to the normal function and structure of the body. Sulfur is a raw material of the protein and connective tissue that make up our body mass, for enzymes that conduct countless chemical reactions, and for the powerful natural compounds that protect us against toxicity and harmful oxidative stress. Sulfur also has a long history of healing.

Capsicum Oleoresin is the molecular fire substance found in hot peppers. It works by blocking the neurotransmitter substance "P" production and by blocking C-Fiber or pain-fiber conduction, thereby reducing neurogenic inflammation and pain response. This ingredient works directly to decrease pain at the site of your nerves.

Methyl Salicylate naturally occurs in Wintergreen leaves, and Sweet Birch. It is commonly used externally as an antiseptic. This all natural product is gaining popularity for its ability to deeply penetrate human skin. It is used in Thentix as a carrier to deliver the medicine to origins of the pain. It also delivers an immediate cooling effect when first applied to skin. Thentix Pain Formula is able to quickly and effectively deliver the relief right to the site of pain-causing nerve endings.

#### What Thentix® Pain Formula Does

Thentix® provides super-fast relief of general muscle soreness, back pain and tendonitis, including immediate pain relief from arthritic conditions, bursitis, stiff joints, leg and muscle cramps. Thentix® has also been found to bring relief to sufferers of carpal tunnel syndrome. As a secondary benefit, Thentix can help reduce or eliminate the need for narcotic pain relievers.

#### How to Use Thentix® Pain Formula

Thentix's specially formulated cream couldn't be easier to use. It is easily administered by gently rubbing a small amount directly onto the affected area until it is completely absorbed into the skin. Apply 3 or 4 times daily for hours of uninterrupted pain relief.

#### Experience Thentix's "Cool-Heat" Sensation

Within seconds you will feel the "Cool-Heat" of Thentix effectively penetrating deep into the tissue of the area being treated and you know that quick relief is on the way. Thentix® causes increased blood flow in the affected area, promoting fast healing and is known to contain analgesic and anti-inflammatory properties. In addition to reducing pain and swelling, Thentix can help increase range of motion in stiff joints.

#### No Stains or Offensive Odors:

Thentix's special non-greasy formula will not stain clothes or bed sheets and will not leave unwanted residue on your skin. Thentix is absorbed completely into the skin and the mild menthol aroma dissipates quickly and is not offensive.

#### Thentix® Pain Formula is Safe

Thentix® has been shown to be extremely safe and effective for all age groups. Consult your physician before using it on children under the age of 2 and pregnant and nursing mothers. Wash hands after each application. Avoid with eyes and mucous membranes. If contact does occur, flush thoroughly with clean water. Thentix is for external use only, do not ingest internally. If skin irritation occurs, discontinue use immediately. Like all medications, keep out of reach of children.

#### What is in Thentix®?

Thentix® Joint Pain Relief contains only the finest natural ingredients.

Active Ingredients: Methyl Salicylate - MSM - Capsicum Oleoresin - Chondroitin Sulfate
