

## Bubble Shooter

Bubble Shooter Light-up bubble shooter that is fun for all ages. Shoot incredibly long strings of bubbles that glow blue in the dark from the LEDs. These guns are excellent year-round for fun and games. They leave no mess, unlike water guns, and they are sturdy enough to use—and drop—again and again without breaking. These guns come in a clear plastic shell that allows you to see all of their interesting gears and wires, each lit up by a series of cool LEDs that light up in patterns. They are especially neat at night. Keep a piece of summer fun in your children's lives year round with these bubble shooters.
